

EPIC TOUCH

CONTROL ALL YOUR LED LIGHTS WITH A TOUCH OF A FINGER.

The key to controlling LED lights is just finger tap away. Execute LED lights with ease. Inspire and swoon your guests with a dance of color resembling the Northern lights. Trigger shooting stars and meteor showers at will in your home theater.

Replicate mother nature's magical moments again and again. Nature's sound effects at your fingertips.

All of the built in software and application in the EPIC TOUCH were engineered and designed with you in-mind. Take advantage of endless lighting possibilities in your own personal home or office. Control your entire home ambiance that you cannot do with any other controller.
